PROFESSIONAL SUMMARY

Results-driven finance professional with an MBA and CA Inter (Group I) qualification, combining buy-side equity research experience with ERP consulting and chartered accountancy practice. Skilled in financial modelling, equity valuation, SAP FICO, accounts and tax reporting, and AI-assisted workflow automation - with certified credentials across Bloomberg, NISM, and SAP. Comfortable working independently in distributed teams and collaborating asynchronously across time zones. Actively seeking roles in financial analysis, research, finance operations, or AI-enabled business workflows.

WORK EXPERIENCE

Equity Research Analyst Intern (Buy Side) - Omega Portfolio Advisors by MoneyWorks4Me 05/2025 - 06/2025
Pune

- Covered 6 Indian IT companies for a ₹350+ crore AUM advisory firm - built financial models, ran DCF and comparable company analysis, and produced equity valuation reports for senior analysts.
- Analyzed balance sheets, P&L statements, and cash flow statements to assess business resilience and flag potential investment risks.
- Tracked macroeconomic indicators and sector-level trends to estimate total addressable markets and support stock selection decisions.
- Evaluated sell-side research reports and consensus analyst estimates to stress-test valuation assumptions and refine price target recommendations.
- Presented research findings to senior analysts using Excel and Tableau, translating complex data into clear investment narratives.
- Worked with the research team to align coverage priorities with portfolio strategy and ensure timely delivery of reports.

Associate Consultant (SAP) - HCL Technologies Ltd. 02/2022 - 12/2023
Hyderabad, India

- Resolved 200+ critical SAP incidents and configuration requests across FI modules (GL, Taxation, PCA, Cost Objects, Cost Center, Project Systems), maintaining financial data accuracy for stakeholder reporting.
- Led the FI team through development, UAT, cutover, and go-live, including automation of master data processes via Workfusion IACD.
- Delivered 10+ custom client enhancements in coordination with cross-functional teams (FIDEV, SD, FICO, Security, Basis), ensuring on-time delivery across US, Europe, and Asia.
- Authored SOPs and KT documents; trained new team members and client stakeholders to strengthen onboarding and knowledge continuity.

Senior Tax & Accounts Assistant - SK Lahoti & Co 07/2019 - 01/2022
Navi Mumbai, India

- Finalized accounts and prepared financial statements (Balance Sheet, P&L, Notes) for public and private companies in compliance with applicable accounting standards.
- Managed tax planning, reporting, and compliance for 150+ clients - covering Income Tax, GST, TDS, and ROC filings, including tax audit reports and statutory adherence.
- Represented 10-15 clients before tax authorities in income tax, GST, and excise matters, securing resolution and ensuring regulatory compliance.
- Conducted audits, reconciled accounts (debtors, creditors, banks), and performed expense analysis to maintain financial accuracy.

SELECTED PROJECTS & DIGITAL INITIATIVES

DRIVERS - LLM-Based Investor Sentiment Analysis | MBA Research Project

- Designed a quantitative research study analyzing 148,000+ stock-day observations across BSE Sensex 30 and Dow Jones 30 constituents (2015-2024) to evaluate LLM-driven sentiment signals as equity return predictors.
- Integrated multiple sentiment data streams - FinBERT, Bloomberg News Sentiment, Google Trends, and the Fear/Greed Index - alongside the PSY_14 technical indicator to assess cross-market predictive performance.

- Produced a portfolio-grade research output in quantitative equity research and NLP-based financial analysis, suitable for academic and professional investment audiences.

Skills: *Python, FinBERT, Bloomberg Terminal, Sentiment Analysis, Quantitative Research, Data Analysis*

Algorithmic Trading System | NSE F&O and Delta Exchange Crypto Futures

- Built and deployed a live algorithmic trading system across NSE F&O and Delta Exchange crypto futures, incorporating volatility-adjusted trailing stop logic with asset-specific parameter calibration across five instruments.
- Iterated through multiple strategy versions, transitioning from a VWAP crossover baseline to BOS/CHoCH (Break of Structure / Change of Character) entry signals to improve signal precision and reduce backtesting runtime.
- Deployed the system to Railway.app for continuous live operation since March 2026, integrating exchange APIs for real-time order execution and position tracking.

Skills: *Python, Algorithmic Trading, Backtesting, Exchange API Integration, Cloud Deployment (Railway.app)*

ExamPack - AI-Assisted Web Product | exampack.in

- Launched ExamPack from prototype to live website at exampack.in using a Claude Code-assisted development workflow, translating product requirements into a functional web experience.
- Configured Supabase authentication, callback and password-reset routing, redirect URLs, and deployment settings across local and production environments to support a stable public launch.

Skills: *AI-Assisted Web Development, Claude Code, Next.js, Supabase Auth, Deployment Configuration, Product Debugging*
